SUMMARY

I have worked in independent theatre in Ankara since 2018. I am a founding member of Gri Şehir Tiyatrosu and Sisifos Sanat, where alongside acting I take on production, organisation and technical work such as lighting and sound operation. I practise physical theatre and improvisation, and work with Cosa Sahne on improvisation performances and workshop organisation. Working with limited resources has taught me to think of performance together with the practical labour that makes it possible.
